

# SHOWCASE

Aquaknox - Atlanta, USA

The Aquaknox was eagerly anticipated, rounding out the cast of high-profile restaurants at Terminus, a landmark community in Atlanta. The Aquaknox sets a new standard of culinary excellence, serving fresh seafood flown in daily from around the world. The restaurant theme is “global water cuisine” and the décor attempts to evoke the sea with waterfalls and aqua hued walls and ceilings. To create the fresh colors and the vibrancy of the cool ocean the designer relied on Traxon's Wall Washer and Liner XB. Both products excel through their stylish extruded aluminum profile, which acts as an efficient heat sink. The high power LEDs of the Wall Washer and Liner XB generate a high brightness single color or color changing light for a rich wall-washing effect changing any flat surface into an ocean of colors. The result at Aquaknox is a restaurant soused in blue and white, a special experience for the eye, designed to entertain every sense of the guests.
